

- Exterior-grade plywood, Group 1, CC type.
- Pressure treated decking.
- Concrete and properly prepared cement terrazzo.
- Flat carbon steel plate (as long as no rust, dirt, oil, or grease is present).
- Cement-based self-leveling underlayment and patching compounds.
- Embossing levelers applied over existing, properly prepared and fully bonded ceramic tile and fully bonded vinyl composition tile (VCT) – one layer only.
- Properly prepared and primed gypsum underlayment that meets the ASTM F2419 requirements for compressive strength.
- Low commercial grade cut pile and commercial grade level loop carpet in good, clean condition.
